There's a Dresden notched trowel for every hard surface Installation. The key to proper adhesion lies in using a good trowel, notched correctly for the job. With the largest selection of notches in the industry, Red Devil's Dresden line makes any job the easiest ever. And now every Red Devil notched trowel has a 10° angled front edge to assure ease of spreading, even in out-of-plumb corners! Use the handy chart below to assure proper notch selection.
